The Journal is published three times a year, in Spring, Fall and Winter.

The articles reflect solely the responsibility of their authors.

The Journal is devoted to the study of the economic history of Europe and of European countries, and its impact both on other areas and from other areas of the world economy, including: monetary, banking and financial history; the history of agriculture, industry and services; business history; the history of transport and trade; the history of innovations and technology; the history of national and international economic institutions; social groups, élites and ruling classes that have influenced change; the history of ideas in their connections with economic history; economic historiography and theory.
